

BUILDING HEALTHY RELATIONSHIPS ...

Mission

To promote full productive lives and healthy relationships among children, families and individuals through responsive home- and community-based therapeutic programs, education and support services carefully designed to meet the unique circumstances of our clients.

What's New

This is Autumnleaf Group's third year partnering with the Social Work Department at George Mason University to serve as a field placement site for two master-level interns. Dorine Ndayizigiye is in her first year; and Christine Lee is in her second year of the Master's of Social Work program. We are delighted to have them on board and we look forward to providing them with an array of social work experience.

In addition, we are pleased to announce our recent partnership with Community Lodgings, which is an organization that provides transitional housing and case management services for homeless families. Janine N. Harrigan, CEO and licensed social worker at Autumnleaf Group, provides counseling and therapeutic groups for families who participate in this program.
